Individuals entering an end-of-life stage often feel incredibly vulnerable and overwhelmed. The presence of physical pain, emotional distress, and spiritual reflections threaten their peace of mind and overall emotional health. During these difficult times, a reputable hospice program can provide invaluable support to both patients and their loved ones to navigate the complexities of end-of-life care.

Hospice care is a compassionate and holistic approach to end-of-life care that focuses on the physical, emotional, and spiritual needs of patients and their families. At Eden Hospice, we provide comfort, dignity, and quality of life for people with terminal illnesses, regardless of their diagnosis, age, or background. Additionally, our services extend to family members and caregivers by providing counseling, education, and bereavement support. We offer hospice care to individuals in the comfort of their own homes, or to those in nursing homes, assisted living facilities, and hospitals. Our hospice services are covered by Medicare, Medicaid, and most private insurance plans.

OUR MISSION

To unwaveringly stand by our patients during their most difficult moments by providing relief, dignity, and quality of life for people with terminal illnesses.

We achieve this by embracing a hands-on approach, tailoring a care plan unique to each patient while being mindful and attentive to one's clinical, spiritual, and psychosocial support needs.

At Eden Hospice, we foster a connection with our local community to create a network of care that extends beyond medical treatment.

Eden
Hospice

The Eden Hospice team is dedicated to ensuring that your family member receives the highest quality of care by utilizing a team-based model of care. This means that an entire team of dedicated professionals is assigned to each hospice patient, ensuring that every possible angle is covered while providing the most comprehensive care possible.

"Hospice care is not giving up hope, but rather ***embracing hope in a different way.****"*

OUR HOSPICE TEAM INCLUDES:

Our **Medical Director**- the doctor leading and guiding the entire team in providing comprehensive medical care.

Registered Nurses, who provide excellent nursing care, and coordinate with all the different members of your team so that a clear understanding of each patient's unique medical situation is reached.

Home health aides, who provide compassionate, hands-on support, focusing on comfort and quality of life. They assist with daily activities such as bathing, grooming, and dressing, provide mobility assistance, give emotional support, and help with light housekeeping.

Our **Medical Social Worker**, who provides counseling services that focus on addressing the emotional wellbeing of both the patient and their loved ones. They also provide education and assistance for available services in the community, including help with finances, access to community programs, and volunteer services.

The **Chaplain**, who is available to provide spiritual support and counseling, as well as being a comforting presence for when patients or their loved ones need emotional support.

We also offer various other services, including bereavement counseling, dietary counseling, volunteer services, occupational and physical therapy, and speech-language pathology services.

Eden Hospice

Utilizing this team-based approach, we are able to focus on any type of issue that may arise and disturb a patient's peace of mind in their twilight days.

When Eden Hospice steps in, the family and caregivers can rely on us, so that they can focus on what's most important- ***their loved one***.
